Dr. Darleane Hoffman The 2001 Moshers' Award Winner

This year the Moshers' Award Winner comes from our Bay Area. But, no matter how far we would have gone we would not have found a worthier awardee than Dr. Darleane Hoffman. Professor Hoffman's scientific achievements and contribution to the field of Chemistry epitomize the goals and the spirit of this award.

Director of the Seaborg Institute for Transactinium Science. The awards bestowed on Professor Hoffman are many. The latest was the ACS Priestly Medal, presented to her in March, 2000 during the ACS National meeting in San Francisco. Before that, She

was elected Fellow at the American Institute of Chemists, American Physical Society and the American Association for the Advancement of Science. Dr. Hoffman was also the recipient of the ACS Garvan Medal for contributions for the physics and

Dr. Hoffman has been a professor in the Department of Chemistry at the University of California at Berkeley since 1984. She is also a senior scientist and a group leader at Lawrence Berkeley National Laboratory and the

September Dinner Meeting

Title: Decoding The Stradivarius: The Materials, The Sound, and The Mystique with *Dr. Joseph Nagyvary* and music performed by *Violinist Zina Schiff*

Date: Saturday, September 23, 2000

Time: 2:00 p.m. Presentation
3:15 p.m. Musical performance
4:00 p.m. Refreshments

Location: California State University, Hayward, Main Theater
25800 Carlos Bee Blvd.
Hayward, California
510-885-3000

Reservations:

Shirley Radding
408-246-2564
408-296-8625 FAX
sradding@att.net

or

California ACS Section Office
925-287-8055
office@calacs.org

Reservations should be made by September 15th stating name, section affiliation, number of tickets desired.

Cost: \$8.00 per person

The Santa Clara Valley and California Sections are pleased to host a joint program on September 23rd at the Cal State Hayward Theater for chemists and music lovers as well.

The July issue of Discover magazine features a fascinating article on our guest speaker, Dr. Joseph Nagyvary, entitled Stradivari's Secret. We will also be treated to a musical performance and comparison of a Nagyvary violin, a Stradivarius violin, and a 20th century violin made by Sergio Peresson.

Decoding the Stradivarius The Materials, The Sound and The Mystique

Abstract

Following centuries of speculations, some modern chemical analysis was performed on the material make-up of old Italian string instruments, including one sample of Antonio Stradivari. The results are quite different from those obtained in the analysis of the 19th and 20th century instruments. There seem to be three major differences, which may have a profound effect on the acoustical properties. (1) The wood of the old instruments appears to be soaked in a brine; (2) the surface was filled with a water-soluble mucilage and mineral powder, and (3) the varnish itself was a microcomposite. Admittedly, the limited number of samples analyzed does not allow a generalization, but

numerous studies of reconstruction lend support to this new view of what was really important in the Cremona method of violin making. Chemistry—both ancient and modern—emerges as a critical tool in determining the sound quality of wooden musical instruments. Historical evidence suggests that Stradivari and his colleagues

Moshers' Award, continued from front page
 chemistry of the heaviest elements. Dr. Hoffman's contributions and professional activities are too numerous to list. She was the Chair of the ACS Division of Nuclear Chemistry and Technology (DNCT), Chair of the committee of Nuclear and Radiochemistry (NAS-NRC), Committee Member of IUPAC-IUPAP on claims to priority of discovery of elements 104 and 105. Some of Dr. Hoffman's accomplishments with her co-workers are the discovery of plutonium-244 in nature, first observation of enhanced symmetric mass division in spontaneous fission in heavy fermium (element 100) isotope. First direct proof of electron-capture delay fission development of atom-at-a-time techniques for investigations of the chemical properties of the heaviest elements which have half-life of minute or less.

Dr. Hoffman was born in Terrill, Iowa. She received her B.S. and Ph.D. in Chemistry from Iowa State University, Ames, Iowa. She and her husband have two children and they live in Oakland.

Chair's Message

Well summer's over and now it is time to start thinking about the fall's events. We're going to have a busy one with a couple of activities each month. Sally Peters has already planned a series of interesting talks for dinner meetings for September, October, and November (www.scvacs.org/Local_Folder/din_mtg.html). Claire Komives and Raquel Olegario, as chairs of the Younger Chemists Committee, have planned events for the rest of the year, starting with a tour of Gordon Biersch Brewery on August 31 (www.scvacs.org/ycc/). Also we are in the planning stage for events celebrating National Chemistry Week, November 5 – 11. This year's theme is "Kitchen Chemistry." If you would like to participate in any of these events, contact one of the officers on the back of the newsletter or check out our web site (www.scvacs.org).

Ea Warren

September Meeting, continued from front page
 Renowned concert violinist, Zina Schiff, will perform Richard Names Rhapsody and other selections. She will be accompanied on the piano by her daughter, Cherina.

Directions:

From 880 or the San Mateo Bridge:

Head East on Rt. 92 (Jackson) Turn right onto Soto, then turn left onto Orchard. After crossing Mission, Orchard becomes Carlos Bee and goes directly to campus. Turn left on Loop Road and then right into K or L parking lots that are directly behind the Theater.

From the Hayward Bart Station:

On the Saturday schedule take bus 92 to campus. It leaves the station hourly at 12:27, 1:27; etc.

Parking is free on Saturday on campus. For more information, visit web site at www.csubayward.edu.

Decoding, continued from front page
 were lucky beneficiaries of fortuitous coincidences with regard to wood procurement and finishing technologies. Much of the mystique concerning Stradivari's violins could have had its real origin in the local drug store.

Unfortunately, the satisfactory scientific verification of the above hypothesis will have to await a change of heart by the powerful antique violin business: it is expected to provide samples and funds for materials analysis. In the meantime, the author's views will remain controversial, while the Stradivari mystique will keep growing.

One of the persistent myths that no modern violin maker has produced anything comparable with a Strad can be debunked. Tonal analysis via FFT technology can prove that some present violin makers compare favorably with an average Stradivarius. To illustrate this point, a new violin by Dr. Nagyvary will be compared to a Stradivarius owned and played by Zina Schiff, as an entertaining prelude or postlude in the program featuring both arts and sciences.

Biography of Joseph Nagyvary

A native of Hungary, Joseph Nagyvary majored in chemistry at the Eotvos Lorand University of Budapest (1952-1956); he became a student of

A. Ottenberg Award for 2000

The Abraham Ottenberg Award of the Santa Clara Valley Section recognizes members of the section who have provided distinguished service to the Section. This year's recipient is Herbert B. Silber. The award was presented at the annual Awards Picnic and Wine Tasting Meeting at Stanford University July 15th 2000.

The recipient was nominated for his continued service to this Section from 1968 to present. He has held elected offices as Alternate Councilor, Councilor, Chair-elect, Chair and Past-Chair. He has also chaired the Awards Committee and the Safety Committee. At the National Level he has served on the Committee on Minority Affairs and Project SEED. Before coming to the Bay Area he served as Chair-elect, Chair, Past Chair and Secretary of the San Antonio Section.

Decoding, continued from previous page

the Swiss Nobel Laureate Paul Karrer in 1957, and received his Ph.D. in the chemistry of natural products in 1962. While in Zurich, he had his first formal violin lessons on a violin which once belonged to Albert Einstein, a coincidence which helped turning his attention to the physical mysteries of the violin. In 1963, he spent a postdoctoral year with Lord Alexander Todd, a British Nobel Laureate. He came to the United States in 1964, held positions at the University of Connecticut and Creighton University, and settled down in Texas in 1968 at Texas A&M University. He was awarded tenure in 1972 and has remained in College Station as a professor of biochemistry and biophysics.

Professor Nagyvary was the recipient of a Career Development Grant, and numerous other research grants from the National Institutes of Health, the National Science Foundation, and the NASA. His expertise in natural products chemistry includes alkaloids (curare), peptide and nucleotide synthesis and polysaccharides. Professor Nagyvary has brought an unprecedented level of academic expertise to bear upon the age old violin puzzle. His discoveries concerning the classical violins were made public in over 120 lectures sponsored by the American Chemical Society. Unfortunately, Dr. Nagyvary's work has often been distorted and sensationalized by journalists and magazine writers. In addition to his academic duties, Dr. Nagyvary also runs a private violin business which is detailed at the web site www.nagyvary-violins.com.

Violin Related Publications of Dr. Joseph Nagyvary

1. The history and interpretation of chemical knowledge available to violin makers. *J. Violin Soc. of America*, Vol. IV, Nos. 3&4, pp. 147-176, 1978.

Partial Listing of Other Media Releases

“What is music?” PBS Nova special program featuring violin research at TAMU.

Also, ABC World News, NBC Nightly News, major articles in *New York Times*, *Times of London*, *Die Welt* and diverse magazines such as *The Smithsonian*, *Science '84*, *Readers Digest*, *Discovery*, *People*, and *Southern Living*. Nothing could be more flattering though than the inclusion of Nagyvary's work in the 6th grade Science textbook published by Silver Burdett & Ginn, and in the high school textbook *Modern Chemistry* by Holt, Rinehart and Winston.

Recordings on CD using Nagyvary violins were made by Zina Schiff on Stradivari Classics label (Bach & Vivaldi, SCD 8010; *The Lark Ascending*, SCD 8011), and by Suzan Leon under Classiopee Disques (Dvorak, DDD 969252; Faure DDD 969251).

Biography of Zina Schiff

Violinist Zina Schiff has been described by *The New York Times* as an instrumentalist of “Luscious high voltage...vintage Heifetz.” The comparison to the legendary Jascha Heifetz is apt, as Ms. Schiff is a Heifetz protege. With a special blend of virtuosity, musical integrity, and communicative power, she has dazzled audiences and critics throughout the United States, Eastern and Western Europe, Israel, Australia, and the former Soviet Union. Zina's many awards include

the Young Musicians' Foundation Debut Award, the San Francisco Symphony Foundation Award, and a grant from the Martha Baird Rockefeller Fund for Music. A student of Ivan Galamian at The Curtis Institute of Music, she is the only violinist to have won both the Junior and Senior Auditions of the Philadelphia Orchestra. Zina recorded the score for the MGM movie “The Fixer”, composed for solo violin by Academy-Award winner Maurice Jarre. Named one of the “Top Ten College Winners” by *Glamour Magazine*, Zina has been selected as an “Out-standing Young Artist” by *Musical America*.

Zina has performed at such summer festivals as Music from Bear Valley, Sewanee, and Newport, Rhode Island, where her artistry was described as “pure perfume”. Radio listeners are familiar with Zina's appearances on National Public Radio's “Performance Today”, WGBH's “Morning Pro Musica” in Boston, and New York's WQXR. Television viewers worldwide saw Zina on the PBS “Nova” program entitled “What is Music?”, where she performed the Sibelius Concerto on an experimental violin by Texas A&M professor Joseph Nagyvary.

Zina's highly acclaimed debut recordings were two compact discs, *The Lark Ascending and Bach/Vivaldi* – with the Israel Philharmonic, performed on a Nagyvary violin. Her latest CDs – *Here's One*, a collection of American music, and *King David's Lyre*, a set of works by Jewish composers, were performed on a 1697 Stradivarius and were selected as Best of 1997 by the American Record Guide.

Reviewers on four continents have been excited by Zina's “communicated sincerity and sensitivity – call it charisma” (*San Diego Union*) and her “complete mastery of the violin” (*London Daily Telegraph*).

Volunteers Needed

The Intel Carver Scholars Program is looking for 20 one-on-one science coaches for 4th to 12th grade minority students in the Silicon Valley, particularly in San Jose. The coaches will work with and encourage the students by e-mail, telephone and in person for the student to complete a science fair project for competition on Jan. 5, 2001 – the George Washington Carver Recognition Day and Science Fair in California. Contact Howard Peters as soon as possible (650) 324-1677 Ext. 20 or peters4pa@aol.com.

Learning Opportunities

San Jose State University Department of Chemical and Materials Engineering can enhance your professional devel-

opment. The courses offered help one keep pace with our rapidly changing and increasingly demanding workplace. Class times are chosen to be compatible with typical work schedules.

You can learn new job skills, enhance existing competencies or explore a new career field. Find out about Fall 2000 courses at: www.engr.sjsu.edu/cme/.

Upcoming Events

The October speaker will be Dr. Geof Dolbear. His title is "Everything you always wanted to know about consulting (...but were afraid to ask). The tentative date and place are Thursday, October 19th at Capriccio's restaurant in Menlo Park.

CHEMPLOYMENT ABSTRACTS – SEPTEMBER 2000

<p>CHEMPLOYMENT ABSTRACTS 3345</p> <p><i>Position Title:</i> Research Scientist (Chip Development - New Surfaces)</p> <p><i>Job Description:</i> Initiate & implement novel research & development strategies in area of ProteinChip arrays. Independently develop new surface chemistries to improve & expand ProteinChip array separation capabilities</p> <p>QUALIFICATIONS DESIRED <i>Education:</i> PhD chem, chem engrg or biochem <i>Experience:</i> Min 5 yrs hands-on exp in surface modification & synthetic polymer chem mandatory. CHEMPLOYMENT ABSTRACTS — SEPTEMBER 2000

CHEMPLOYMENT ABSTRACTS 3353

Position Title: Radiochemistry Research Scientist

Job Description: Plan & execute synthesis of radiolabeled cpds with ³H, ¹⁴C & stable isotopes on micro scale. Prepare research repts of results for presentation. Must maintain safe lab working conditions & comply with EH&S radiation safety & CGMP regulations.

QUALIFICATIONS DESIRED

Education: PhD synthetic org chem + 2+ yrs postdoc exp for RS I & 4+ yrs postdoc exp for RS II position.
Experience: Exp in planning synthetic routes, conducting exps & purifying & identifying prods is required. Background with microscale & radio-org synthesis is desired, & knowledge of analysis & purification by HPLC a plus.

LOCATION, SALARY, MAIL ADDRESS

Location: Palo Alto

Salary: Competitive salary & benefits

Description of Employer: Focused on small molecule drug discovery

Application Instructions: Send resume to:

Roche Bioscience, Job Code 0809ACS-RC

3401 Hillview Avenue, A2-HR

Palo Alto, CA 94304

FAX: 650-424-8159

www.roche.com/bioscience

CHEMPLOYMENT ABSTRACTS 3354

Position Title: Process Chemistry, Research Scientist

Job Description: Conduct research to find economical & safe synthetic routes to exp Active Pharmaceutical Ingredients (APIs) & carry out scale-up activities (large glassware & pilot plant equipment) to produce batches of APIs for use throughout the org. Keeping current with chem lit, make contributions for projs including for other groups, conduct lit searches & write tech rpts.

QUALIFICATIONS DESIRED

Education: PhD org chem or BS/MS with 5-10 yrs exp
Experience: Knowledge of synthetic org chem, bench-scale lab skills are required. Pilot plant/kilo lab-scale skills, ability to lead a team of synthetic chemists, Knowledge of GMPs & process scale-up exp preferred.

LOCATION, SALARY, MAIL ADDRESS

Location: Palo Alto

Salary: Competitive Salary & Benefits

Description of Employer: Focused on small molecule drug discovery

Application Instructions: Send resume to:

QUALIFICATIONS DESIRED

Education: MS, PhD or equiv
Experience: 3 or more yrs exp with modern microfluidic technologies and/or chromatog and/or mass spect methods.

LOCATION, SALARY, MAIL ADDRESS

Location: San Jose

Salary: Competitive salary & benefits

Description of Employer: Chemical Testing Equipment Manufacturer

Application Instructions: Send resume to:

ThermoQuest Corporation

Attn: Caren Scott

Job Code ChemCB

355 River Oaks Parkway

San Jose, CA 95134

CHEMPLOYMENT ABSTRACTS 3364

Position Title: LC/MS Product Specialist(s)

Job Description: Will Assist in all aspects of Product Marketing including but not limited to hardware & software prod evaluations, strategic planning, methods development & publications of applications notes & tech bull, market assessments, competitor evaluations.

QUALIFICATIONS DESIRED

Education: BS, MS or PhD
Experience: Must have excellent communication & organization skills, 2 yrs exp. Significant travel required to worldwide offices, customer sites & trade shows.

LOCATION, SALARY, MAIL ADDRESS

Location: San Jose

Salary: Competitive salary & benefits

Description of Employer: Chemical Testing Equipment Manufacturer

Application Instructions: Send resume to:

ThermoQuest Corporation

Attn: Caren Scott

Job Code ChemG

355 River Oaks Parkway

San Jose, CA 95134

CHEMPLOYMENT ABSTRACTS —SEPTEMBER 2000

CHEMPLOYMENT ABSTRACTS 3365

Position Title: LC/MS Triple Quadrupole Product Manager

Job Description: Responsible for assessing scientific strategies within the industries served, management of all marketing aspects of current prod including creation & presentation of papers, sales tools & promotional matl using appropriate technical & applications data. Will also generate future prod definitions & strategies so we can maintain our position as market leaders in these technologies.

QUALIFICATIONS DESIRED

Education: BS , PhD preferred, biochem or chem
Experience: 5 yrs exp. Prior exp within analytical equipment, pharmaceutical or biotech industries are also required, preferably using LC/MS. Must have excellent communication skills.

LOCATION, SALARY, MAIL ADDRESS

Location: San Jose
Salary: Competitive salary & benefits
Description of Employer: Chemical Testing Equipment Manufacturer

Application Instructions: Send resume to:
ThermoQuest Corporation
Attn: Caren Scott
Job Code ChemIG
355 River Oaks Parkway
San Jose, CA 95134

CHEMPLOYMENT ABSTRACTS 3366

Position Title: Scientist

Job Description: Responsible for initiation, design, development, execution & implementation of scientific research projts. Maintain substantial knowledge in state-of-the-art principles & theories & may contribute to scientific literature & conferences. Will work in a research environment & will assist with the design & development of novel(hybrid) LC/MS TOF systems.

QUALIFICATIONS DESIRED

Education: PhD
Experience: Minimum of 5 yrs exp, prior exp with TOF is desired.

LOCATION, SALARY, MAIL ADDRESS

Location: San Jose
Salary: Competitive salary & benefits
Description of Employer: Chemical Testing Equipment Manufacturer

Application Instructions: Send resume to:
ThermoQuest Corporation
Attn: Caren Scott
Job Code Chem678-GS
355 River Oaks Parkway
San Jose, CA 95134

CHEMPLOYMENT ABSTRACTS 3367

Position Title: Software Engineer

Job Description: Responsible for development of advanced software applications for Proteomic and metabolic applications. Development of mass spectral visualization tools to support pharmaceutical applications.

QUALIFICATIONS DESIRED

Education: BS
Experience: Minimum of 2 yrs exp. Must have exp using C++ language and windows NT. Background in chem or biol along with web based skills of JAVA, HTML a plus.

LOCATION, SALARY, MAIL ADDRESS

Location: San Jose
Salary: Competitive salary & benefits
Description of Employer: Chemical Testing Equipment Manufacturer

Application Instructions: Send resume to:
ThermoQuest Corporation
Attn: Caren Scott
Job Code Chem1214-IM
355 River Oaks Parkway
San Jose, CA 95134

CHEMPLOYMENT ABSTRACTS 3368

Position Title: Sr. Research Scientist

Job Description: Lead efforts to discover novel economical processes for synthesis of investigational & commercial drug substances. Generate ideas based on chem lit, scale up successful approaches in pilot plant & transfer technol to contract manufacturers. Prepare reports & regulatory documents & supervise research chemists.

QUALIFICATIONS DESIRED

Education: PhD synthetic org chem
Experience: 5+ yrs in pharmaceutical process chem is required with knowledge of both research & chem manufacturing. A record of scientific pubs & patents & strong communication skills are essential. Knowledge of cGMP & FDA regulations is highly desirable.

LOCATION, SALARY, MAIL ADDRESS

Location: Foster City
Salary: Competitive salary & benefits
Description of Employer: Discovers, develops, mfrg & commercialize proprietary therapeutics.

Application Instructions: Send resume to:
JobCode RF-240
careers-fostercity@gilead.com or: FAX: 650-522-5800
Human Resources
Gilead Sciences, Inc.
333 Lakeside Drive
Foster City, CA 94404
www.gilead.com

CHEMPLOYMENT ABSTRACTS 3369

Position Title: Research Scientist/Sr. Research Scientist

Job Description: Design, execute & analyze results from preformulation, formulation & proc development expts leading to commercial formulations & mfg proc. Coordinate & lead activities for mfg toxicol, clinical & registration/validation batches, write CMC sections of regulatory dossiers

QUALIFICATIONS DESIRED

Education: PhD pharm chem, pharmaceutics or equiv
Experience: res scientist, 0-5 yrs exp in preformulation/formulation development. Sr. res scientist 5 or more exp in dosage form development, familiarity with expt design/statistics, pharmaceutical/analytical chem & strong pharmaceutical/phys pharmacy background.

LOCATION, SALARY, MAIL ADDRESS

Location: Foster City
Salary: Competitive salary & benefits
Description of Employer: Discovers, develops, mfrg & commercialize proprietary therapeutics.

Application Instructions: Send resume to:
JobCode RF-251
careers-fostercity@gilead.com
or: FAX: 650-522-5800
Human Resources
Gilead Sciences, Inc.
333 Lakeside Drive
Foster City, CA 94404
www.gilead.com

CHEMPLOYMENT ABSTRACTS 3370

Position Title: Process Engineer

Job Description: Support the development programs for cGMP manufacture of active pharmaceutical ingredients (API). Evaluate contract manufacturers based on cost, volume & timelines; manage manufacturer relationships; write/review manufacturing batch records; interact with QC/QA/Regulatory Affairs on API manufacturing process issues; & coordinate process development, scale-up, validation & manufacturing work to meet regulatory guidelines.

QUALIFICATIONS DESIRED

Education: BS Chem
Experience: 2-5 yrs bulk API manufacturing exp & knowledge of cGMP regulations.

LOCATION, SALARY, MAIL ADDRESS

Location: Palo Alto
Salary: Competitive salary & benefits
Description of Employer: Discovery & development of novel small molecule drugs for treatment of chronic cardiovascular diseases

Application Instructions: Send resume to:
HR, CV Therapeutics
3172 Porter Drive
Palo Alto, CA 94304
FAX: 650-858-0287
No phone calls, please.

CHEMPLOYMENT ABSTRACTS 3371

Position Title: Medicinal Chemistry, Sr Research Associates

Job Description: Design & synthesize novel drug candidates as a member of an integrated, multidisciplinary discovery team.

QUALIFICATIONS DESIRED

Education: BS or MS
Experience: Minimum of 2 yrs of industrial exp required. Will have established & distinguished themselves as highly productive medicinal chemists.

LOCATION, SALARY, MAIL ADDRESS

Location: South San Francisco
Salary: Competitive salary & benefits
Description of Employer: Discovery of novel therapeutic agents.

Application Instructions: Send resume to:
Advanced Medicine, Inc.
901 Gateway Blvd.
South San Francisco, CA 94080
FAX: 650-827-8690
www.advmedicine.com

CHEMPLOYMENT ABSTRACTS 3372

Position Title: Medicinal Chemists Research Associates

Job Description: Contribute to the generation of novel drug candidates as a member of an integrated, multidisciplinary discovery team. Should have significant synthetic skills & be able to work independently in lab.

QUALIFICATIONS DESIRED

Education: MS synthetic org chem; BS with minimum of 1 yr exp in pharmaceutical industry is essential

LOCATION, SALARY, MAIL ADDRESS

Location: South San Francisco
Salary: Competitive salary & benefits
Description of Employer: Discovery of novel therapeutic agents.

Application Instructions: Send resume to:
Advanced Medicine, Inc.
901 Gateway Blvd.
South San Francisco, CA 94080
FAX: 650-827-8690
www.advmedicine.com

CHEMPLOYMENT ABSTRACTS 3373

Position Title: Research Associate

Job Description: Provide organic synthesis support in our drug discovery effort.

QUALIFICATIONS DESIRED

Education: BS/MS, chem, org chem
Experience: Exp in org chem a must & relevant exp in combi chem a plus. Must be willing to learn new techniques in automated cpd synthesis & purification.

LOCATION, SALARY, MAIL ADDRESS

Location: South San Francisco
Salary: Competitive salary & benefits
Description of Employer: Innovative Biotech/pharm company

Application Instructions: Send resume with cover letter & refs to:
Human Resources
Attn: Job Code RS-1
240 East Grand Avenue
South San Francisco, CA 94080
FAX: 650-624-1101
Email: jobs@rigel.com

CHEMPLOYMENT ABSTRACTS 3374

Position Title: Ion Chromatography Specialist

Job Description: Perform various sample preparations (chemicals, water & thin films) & analysis using a chemist's knowledge & company developed SOPs. Assist in refinement of procedures & participate in problem solving activities. Operate, maintain & troubleshoot assigned lab instruments. Interpret analytical results & identify complexities & make deductions reflecting variations in sample types.

QUALIFICATIONS DESIRED

Education: BS chem
Experience: Knowledge of semiconductor processing helpful. 2-3 yrs minimum lab exp with Ion Chromatography.

LOCATION, SALARY, MAIL ADDRESS

Location: Sunnyvale
Salary: Competitive salary & benefits
Description of Employer: Acknowledged industry leader providing analytical services to semiconductor industry.

Application Instructions: Send resume to:
Balazs Analytical Laboratory
HR Job Code: SVC-IC80800
252 Humboldt Court
Sunnyvale, CA 94089-1315
FAX: 408-734-2276
Email: ocampa@balazs.com
www.balazs.com

CHEMPLOYMENT ABSTRACTS 3375

Position Title: Staff Scientist

Job Description: Provide anal support for a variety of in vitro & in vivo expts to evaluate the ADME props of lead discovery cpds. Will assume a key role in design, development & implementation of novel & predictive in vitro assays that are amenable to high thrupt & automation.

QUALIFICATIONS DESIRED

Education: MS (3-5 yrs exp) or PhD (0-2 yrs of relevancy lab exp)
Experience: Exp in chromatog & mass spect is desired & computer skills for data handling & reporting are required. Strong oral & written communication skills. Knowledge in field of anal chem with skills in sepn & detection methods. Interact with external collaborators to acquire or develop new technologies & contribute to export & import of newly developed assays to other labs.

LOCATION, SALARY, MAIL ADDRESS

Location: Santa Clara
Description of Employer: Leader in field of combinatorial chem & technology development

Application Instructions: Send resume to:
Affymax Research Institute
Job Code LTA001
3410 Central Expressway
Santa Clara, CA 95051
FAX: 408-730-1393 Email: ari_jobs@affymax.com

CHEMPLOYMENT ABSTRACTS 3376

Position Title: Research Assistant

Job Description: Conduct expts for development of novel combinatorial libraries. Perform small-scale solid phase org chem reactions; work-up, purify & analyze prods. Write up & prepare reports.

QUALIFICATIONS DESIRED

Education: MS/MS chem
Experience: Practical exp in org chem & modern techniques for purification & analysis (HPLC, TLC, NMR & mass spect) Industrial exp strongly preferred. Good communication & interpersonal skills essential.

LOCATION, SALARY, MAIL ADDRESS

Location: Santa Clara
Description of Employer: Leader in field of combinatorial chem & technology development

Application Instructions: Send resume to:
Affymax Research Institute
Job Code DMA001
3410 Central Expressway
Santa Clara, CA 95051
FAX: 408-730-1393
Email: ari_jobs@affymax.com

CHEMPLOYMENT ABSTRACTS 3377

Position Title: Staff Scientist

Job Description: Responsible for designing new solid phase chemistries for combinatorial chem library synthesis & optimization of hits for lead generation.

QUALIFICATIONS DESIRED

Education: PhD chem with emphasis on synthetic org chem

Experience: Postdoctoral exp & knowledge/exp in solid phase methodologies for combinatorial libraries preferred. Excellent communication & interpersonal skills and ability to work on interdisciplinary projects needed.

LOCATION, SALARY, MAIL ADDRESS

Location: Santa Clara

Description of Employer: Leader in field of combinatorial chem & technology development

Application Instructions: Send resume to:

Affymax Research Institute
Job Code SUN001
3410 Central Expressway
Santa Clara, CA 95051
FAX: 408-730-1393
Email: ari_jobs@affymax.com

CHEMPLOYMENT ABSTRACTS 3378

Position Title: Staff Scientist

Job Description: Development of new solid phase chemistries for use in primary library screening, conceiving, researching & reducing to practice novel solid phase reactions. Responsible for chem prodn of combi libraries of a variety of sizes using manual & semi-automated synthesis based on chemistries that you will have developed or from a variety of other sources. Will use state-of-the-art computer progs to aid in library design & in all aspects of tracking library progress.

QUALIFICATIONS DESIRED

Education: PhD org chem

Experience: Strong synthesis skills & a proven record of research in org chem or medicinal chem preferred. Must be familiar with modern chem drawing & search programs, i.e. ISIS draw/Base, Chemdraw, Scifinder, etc. Exposure to computational approaches to diversity evaluation is desired.

LOCATION, SALARY, MAIL ADDRESS

Location: Santa Clara

Description of Employer: Leader in field of combi chem & technology development

Application Instructions: Send resume to:

Affymax Research Institute
Job Code DTU001
3410 Central Expressway
Santa Clara, CA 95051
FAX: 408-730-1393 Email: ari_jobs@affymax.com

CHEMPLOYMENT ABSTRACTS 3379

Position Title: Staff Scientist

Job Description: Strong background in syn org chem to become a member of a multidisciplinary team involved in a search for novel approaches to drug discovery.

QUALIFICATIONS DESIRED

Education: PhD Chem

Experience: Needs deep understanding of modern synthetic methods & proven ability to synthesize diverse classes of org cpds. Familiarity with parallel synthesis & purification is desired.

LOCATION, SALARY, MAIL ADDRESS

Location: Santa Clara

Description of Employer: Leader in field of combi chem & technology development

Application Instructions: Send resume to:

Affymax Research Institute
Job Code VAN003
3410 Central Expressway
Santa Clara, CA 95051
FAX: 408-730-1393
Email: ari_jobs@affymax.com

CHEMPLOYMENT ABSTRACTS 3380

Position Title: Scientist I, Medicinal Chemistry

Job Description: Responsible for design & multi-step synthesis of target molecules for identification of novel new drug candidates.

QUALIFICATIONS DESIRED

Education: PhD org/medicinal chem

Experience: Min 2 yrs exp in research environ (post-doctoral research may serve as exp); exp with modern synthetic chem; ability to analyze structure-activity relationships; knowledge of modern spectroscopic & chromatog techniques; excellent organizational, analytical, problem solving & written/verbal communication skills.

LOCATION, SALARY, MAIL ADDRESS

Location: South San Francisco

Salary: Competitive

Application Instructions: Send resume to:
COR Therapeutics, Inc.

A. Pandey, Attn: Job #A054-ACS
256 East Grand Avenue
South San Francisco, CA 94080
FAX: 650-244-9287
email: apandey@corr.com

CHEMPLOYMENT ABSTRACTS 3381

Position Title: Research Scientist

Job Description: Design, execute, analyze & document expts; apply critical analysis to expt results including general statistical analysis & prototype circuitry & mechanical fixtures.

QUALIFICATIONS DESIRED

Education: BS phys, optics, chem, engrg or related exp

Experience: Exp with Matlab or similar analytical language; basic understanding of statistics; PC proficiency with MS Office; excellent problem-solving, organizational & written/verbal communication skills. Optics or chemistry exp a plus.

LOCATION, SALARY, MAIL ADDRESS

Location: Scotts Valley

Salary: Competitive

Application Instructions: Send resume to:

Amira Medical
Attn: Job# ACS-0901-RS
4742 Scotts Valley Drive
Scotts Valley, CA 95066
FAX: 831-439-0812
email: HR@amiramcd.com

CHEMPLOYMENT ABSTRACTS 3382

Position Title: Analytical Chemist

Job Description: Responsibilities include conducting analytical methods development, methods validation & application of analytical methods in support of oral dosage form development

QUALIFICATIONS DESIRED

Education: BS chem or related field

Experience: 1-2 yrs exp in analytical chem supporting pharmaceutical industry. Must be detail oriented & able to follow directions; must be able to work well with others as well as independently; must be able to communicate effectively; must have general lab skills.

LOCATION, SALARY, MAIL ADDRESS

Location: Menlo Park

Salary: Competitive

Description of Employer: Development of new & proprietary oral drug delivery techniques.

Application Instructions: Send resume to:

DepoMed, Inc.
Human Resources
1360 O'Brien Drive
Menlo Park, CA 94025
FAX: 650-462-9993
email: humanresources@depomedinc.com

CHEMPLOYMENT ABSTRACTS 3383

Position Title: Applications Associate

Job Description: Conduct expts using cutting-edge freeze-thaw technology on biopharma-ceutical & chem matrices. Perform sample analysis (HPLC, UV, SDS-Page, refractometer). Analyze raw data & provide verbal & written summations. Maintain lab equipment in good working order. Maintain lab notebook that documents object, design, results & conclusions for lab expts.

QUALIFICATIONS DESIRED

Education: BS org chem or chem engrg

Experience: 2+ yrs industrial (Pharma, biotech, biomed & related) exp in executing bench-scale proof-of-principle expts. Exp with chem or biol freeze-thaw systems a definite plus. Exp with SDS-PAGE, HPLC & equipment maintenance skills favorably viewed.

LOCATION, SALARY, MAIL ADDRESS

Location: Benecia

Salary: Competitive salary & benefits

Description of Employer: Only provider of equipment for precisely controlled freezing & thawing of biotech prods.

Application Instructions: Send resume to:

pkklug@integratedbio.com
